Principal Software Engineer / Tech Lead

+61490127070 • mukhtar.sayal.pro@gmail.com • linkedin.com/in/mukhtar-hussain-sayal • mukhtar-pro.github.io • Sydney, Australia

Summary

Principal Software Engineer and Tech Lead with 20+ years of experience delivering and modernizing business-critical web, desktop, and cloud platforms. Strong in full-stack delivery across .NET, JavaScript frameworks, Azure, and SQL-based systems, with hands-on ownership from design and implementation through deployment, support, and ongoing improvement. Known for leading complex delivery, modernizing legacy platforms, and working closely with stakeholders to ship practical, maintainable solutions.

Skills

Frontend:

React.js, Next.js, Angular, Vue.js, TypeScript, Tailwind CSS, TanStack Query, Material UI, shadcn/ui, Sass, Knockout, Blazor, Vuetify, Storybook, WebForms & MVC Controls, Clerk

Backend:

.NET (C#, VB.NET, ASP.NET Web Forms & MVC, ASP.NET Core), Python (Flask, Django, SQLAlchemy), Node.js (Express, NestJS), GraphQL, Entity Framework, Prisma, Drizzle ORM, Microsoft SQL Server / T-SQL, PostgreSQL, Supabase, Neon, MongoDB, Oracle, Redis, Zod, NextAuth.js

Mobile: WPF, DevExpress WPF, Xamarin Forms, Xamarin Android, React Native, Flutter

Cloud & DevOps: Azure, AWS, Docker, Azure DevOps, GitHub, TFS 2013 & 2018, BigQuery, Sentry

Additional: Java, Delphi, PHP, Yii, Webpack, Jest, Vitest, Cypress, CDKTF, Kubernetes, Elasticsearch, Jira, MySQL, Stripe, Resend

Familiarity: Selenium, Jenkins, Terraform, GCP, RabbitMQ, Kafka, GitLab CI, Nginx

Experience

Adactin Group Pty Ltd — adactin.com

Sydney, Australia

Independent Contractor

03/2026 - Present

IT Services and IT Consulting

- Serving as a senior full-stack developer at AEMO on the Constraint Management platform.
- Building and maintaining features across the .NET and Vue stack in a regulated enterprise environment.
- **C#, .NET 8, GraphQL, Vue 3, Prime Vue, TypeScript, Oracle, JFrog, Azure DevOps.**

Perpetual Limited — perpetual.com.au

Sydney, Australia

Senior Software Engineer

12/2023 - 03/2026

IT Services and IT Consulting

- Led design and full-stack delivery for a cloud-based payments platform on Azure.
- Helped break down a legacy monolith into smaller services and event-driven workflows.
- Built Azure-based solutions and deployment pipelines with a strong focus on maintainability and delivery speed.
- Worked with principal engineers and business stakeholders on architecture decisions, proof of concepts, and feature design.
- Contributed through hands-on coding, code reviews, and test-driven development.
- **C#, .NET 8, Blazor, Angular, Material UI, TypeScript, Azure, Azure SQL, Azure DevOps, Power BI, SSRS.**

Quipex Pty Ltd — quipex.au

Sydney, Australia

Principal Software Engineer

07/2023 - 11/2023

Public Safety

- Led full-stack development for the Quipex platform and shipped product improvements in short delivery cycles.
- Owned production support and resolved issues affecting stability and day-to-day operations.
- Improved the codebase and deployment approach with a focus on reuse, security, and maintainability.
- Worked with the wider team on solution design, technical reviews, and CI/CD through Azure DevOps.
- **C#, .NET 7, Angular, Metronic, Playwright, Azure DevOps, GitHub.**

Experience

Blueberry Markets — blueberrymarkets.com

Sydney, Australia

Tech Lead

02/2023 - 05/2023

Capital Markets

- Led and mentored a mixed local and remote engineering team.
- Owned architecture decisions for core platform work, including performance, reliability, and deployment standards.
- Worked directly with stakeholders and product owners to turn business needs into practical technical plans.
- Used proof of concepts and iterative delivery to solve high-risk technical problems.
- Pushed the platform toward more scalable service-based and event-driven patterns.
- **TypeScript, React, Redux, PHP, AWS, Yii Framework, MySQL, CDKTF, Jenkins, GitHub Actions.**

Skills VR — skillsvr.com

Auckland, New Zealand

Principal Software Engineer

04/2022 - 02/2023

Education

- Built and maintained end-to-end .NET solutions used across distributed environments.
- Worked with product owners and client teams to shape requirements and deliver workable solutions.
- Added new features, improved older systems, and raised overall reliability and supportability.
- Provided day-to-day technical guidance to both internal teams and client stakeholders.
- **C#, ASP.NET Core, Entity Framework Core, Xamarin Forms, Xamarin Android, Azure, Azure DevOps.**

Sensand Technologies — sensand.com

Melbourne, Australia

Senior Software Engineer

08/2021 - 04/2022

Software Development

- Worked as lead frontend developer on the Sensand platform.
- Built a custom JavaScript UI framework with the design team and used it across internal products.
- Improved development speed and UI consistency across the product suite.
- **Angular, Material UI, Vue.js, Vuetify, Vuex, Storybook.**

Database Solutions Division, NTT — sqlservices.com

Nelson, New Zealand

Senior Software Engineer

05/2014 - 07/2021

Information Technology & Services

- Mentored junior and intermediate developers and helped manage delivery across multiple workstreams.
- Reviewed code, maintained repositories, and kept technical documentation current in Confluence.
- Built and supported full-stack business applications across a wide range of client projects.
- **C#, VB.NET, Classic ASP, ASP.NET Web Forms & MVC, ASP.NET Core, ES5/ES6, TypeScript, React, Vue.js, Knockout, Entity Framework 6 & Core, Microsoft SQL Server, SQL Server Reporting Services, Azure DevOps, AWS RDS.**

Upwork — upwork.com

Karachi, Pakistan

Technical Consultant Manager

01/2012 - 05/2014

Software Development

- Provided technical consulting for Everest ERP projects.
- Built and supported customizations for ERP and distributed channel management systems.
- **C#, WPF, ASP.NET Web Forms, WCF, Microsoft SQL Server, Crystal Reports, Delphi, Java, Oracle, SVN, GitHub.**

Softvision Solutions

Karachi, Pakistan

Senior Software Engineer

02/2010 - 01/2012

- Worked on a range of custom software projects across web and desktop applications.
- **VB6, Classic ASP, C#, VB.NET, ASP.NET Web Forms, Microsoft SQL Server, Java, Oracle.**

United Bank Limited — ubldigital.com

Karachi, Pakistan

IT Helpdesk Specialist & Supervisor

01/2007 - 02/2010

Banking

- Supervised the IT helpdesk team and supported daily operations.

Softvision Solutions

Karachi, Pakistan

Software Engineer

12/2003 - 01/2007

- Worked on a range of software delivery projects across web and desktop systems.
- **VB6, Classic ASP, C#, VB.NET, ASP.NET Web Forms, Microsoft SQL Server, Java, Oracle.**

Projects

SellMyTickets

sellmytickets.vercel.app

Event Ticketing

- Built a full-stack ticketing platform for event creation, ticket sales, and attendee check-in.
- Delivered authentication, event management, image uploads, Stripe checkout, QR-code tickets, PDF generation, and barcode-based entry flows.
- Added a full admin panel for user, event, and order management, including ticket-level tools and operational workflows.
- **Next.js 15, TypeScript, Drizzle ORM, PostgreSQL, Supabase, NextAuth.js, Stripe, Resend, Tailwind CSS v4, shadcn/ui**

COOL+

cool.org | coolplus.ai

Education

- Delivered full-stack features for an AI lesson-planning app used by teachers.
- Improved onboarding, security, and production hardening, including safer environment handling, validation, CI, and observability.
- Built referrals, admin catalogue and search, folder and document flows, curriculum tools, and AI generation improvements with streaming and guardrails.
- **Next.js, Clerk, Stripe, Neon, Zod, Vitest, BigQuery, Sentry**

Sideway.ai

sideway.ai | documents.sideway.ai

Insurance SaaS

- Built a multi-tenant insurance and mortgage platform used by enterprises in Australia and New Zealand.
- Delivered core full-stack features across React and Flask, with Azure-based cloud deployment and operational support.
- Helped deliver AI document processing workflows for bulk document parsing and extraction.
- **React, TanStack Query, Material UI, Python, Flask, SQLAlchemy, PostgreSQL, Azure, Azure DevOps, Azure AD B2C**

TeamHive

team-hive.co

HR SaaS

- Contributed to a people operations platform used to assess and improve team health.
- Worked across a mixed stack covering Next.js, Vue/Nuxt, .NET, PostgreSQL, and cloud infrastructure.
- Helped deliver product features for feedback, reporting, and team-performance workflows.
- **Next.js, Supabase, Prismic, Vue 3, Nuxt.js, C#, .NET, PostgreSQL, Docker, AWS**

NXP

nxp.nz

eCommerce

- Worked on a large eCommerce platform serving Australian and New Zealand customers.
- Improved homepage carousel components by integrating Algolia search with Contentful-managed content.
- Partnered with product and QA teams to deliver frontend and backend updates with a focus on performance.
- **Next.js, C#, .NET, Azure, Algolia, Contentful, Docker, GitLab Actions**

LifeDirect

lifedirect.co.nz

Insurance

- Led backend development and database management for a large online insurance platform.
- Integrated real-time quote APIs to support fast and accurate insurance comparisons.
- Improved security, performance, and day-to-day reliability while working with cross-functional teams.
- **React, ASP.NET Core, Entity Framework, Microsoft SQL Server, Azure DevOps**

LedgerSmith

ledgersmith.com.au

Financial Services

- Led backend development and platform integration work for a financial services product.
- Built API-driven workflows and improved platform security and performance.
- Contributed across both frontend and backend delivery while working with cross-functional teams.
- **React, TypeScript, Python, Node.js, Azure**

Projects

Dualog

dualog.com

Maritime Technology

- Built frontend features for the Dualog Portal and contributed to backend development.
- Added CI/CD automation and Storybook component library generation through GitHub Actions.
- Supported delivery for a Norwegian client in the maritime software space.
- **Angular, C#, .NET Core, Storybook, GitHub Actions, CI/CD**

Education

Hamdard University

Karachi, Pakistan

B.S. in Computer Software Engineering

2000 - 2004

Certification

Microsoft Certified: Azure Fundamentals — Microsoft

Awards

 **Employee of the Month (Skills VR)**
Recognized for voluntarily providing DevOps support and managing issues after the departure of the DevOps lead.

 **Annual Bonus (NTT)**
Received yearly bonuses for consistent hard work and contributions.

 **Key Contributor (Upwork)**
Successfully transitioned from third-party developers to self-managed development, significantly reducing costs and maintaining a 95%+ customer satisfaction rate, which led to team downsizing but ensured job retention.
